

Getting Started Using eBooks with axisReader on an iOS Device with Axis 360

The following instructions will guide you through the process of downloading axisReader onto an iOS device to begin reading ebooks available from your library and Axis 360.

There are two ways to access and download the axisReader app for your iOS device.

- Download axisReader from the App Zone on your library's mobile Axis 360 site
- Download axisReader from the Apple store

Open Axis 360 in your iOS device's web browser and click on the App Zone. Then select axisReader.

OR Open the Apple Store and search for "axisreader"

When the axisReader App appears, click on FREE and then INSTALL to download.

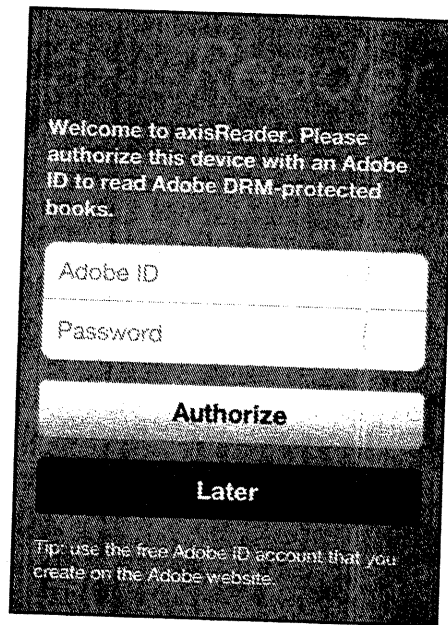

Once axisReader has finished installing, open the app by clicking the axisReader icon from the Home page

The first time you use axisReader, you will need to "Authorize" the account. Authorizing axisReader requires the use of an Adobe ID. If you have an Adobe ID, you may use that ID to authorize up to 5 devices. If you need to create an Adobe ID, please visit the Adobe website at www.adobe.com/account/sign-in.adobedotcom.html.

Creating your account authorizes the usage and display of ePub/PDF formatted ebooks checked out from Axis 360. Authorization of axisReader will remain, even after you've closed the program.

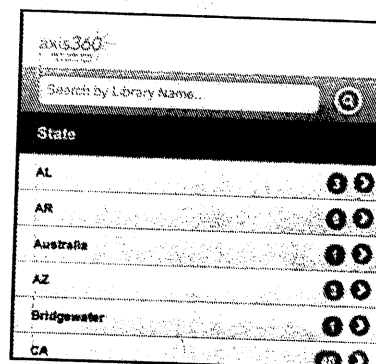

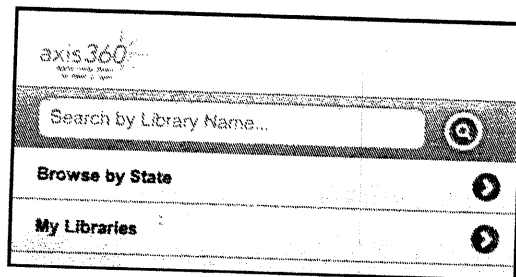

Note: When you register for an Adobe ID there is a check box to "Stay informed via email...". Leaving this box checked authorizes Adobe to send you consumer marketing emails regarding Adobe products.

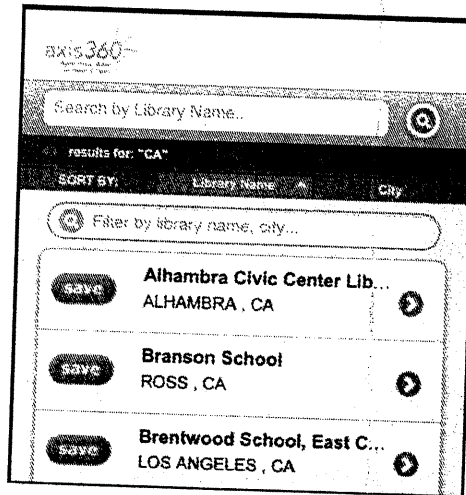

Once authorized, begin using axisReader by saving your local library in the "Find a Library" tab; doing so will create a quick access link to your library's Axis 360 website. Click on "Find a Library" at the bottom of the page.

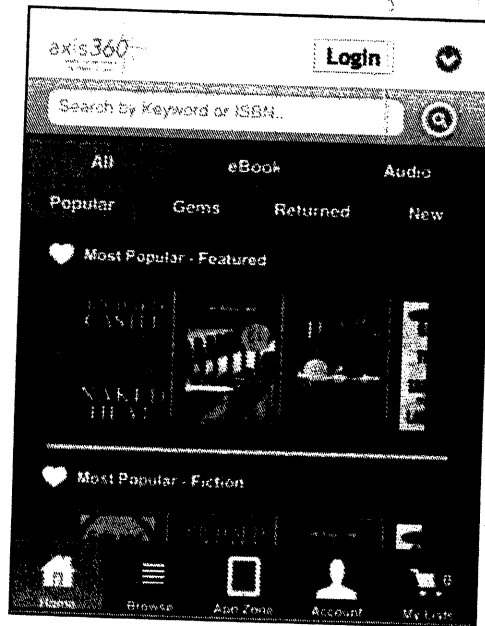

Enter your library's name into the "Search" box or click on "Browse by State". On the following screen, click on your state to locate your library.

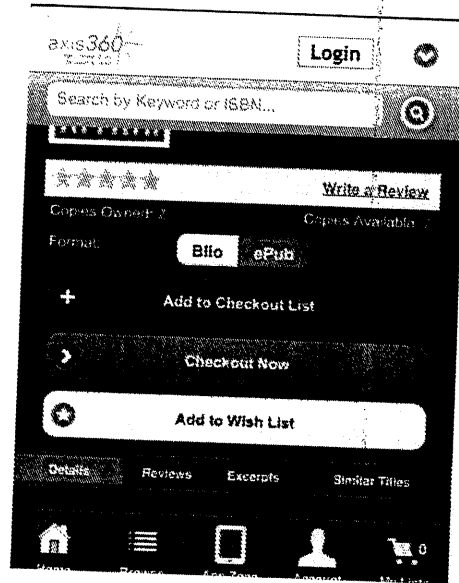

Click on "Save" beside your library name; your library will be saved in the "My Libraries" section of the "Find a Library" tab. Then click on the library name to open Axis 360.

After clicking on the library name to open the Axis 360 website, you can begin searching for ebooks available in your library's digital media collection.

Once a title has been chosen to checkout, select the ePub/PDF format option and then click Checkout Now.

Enter in your Library Card ID and Pin. This information should have been provided by your Library.

Now that the Axis 360 account has been added and authorized, Axis 360 will confirm the ebook checkout.

After the Check out is complete, click on the Download button.

When the download is complete, select "Read Now" and axisReader will open the ebook or select "Read Later" and the ebook will be saved in the axisReader bookshelf.

For additional checkout options available for ebooks on Axis 360, please refer to the Help Pages found online
